

Quality policy

The main objective of the organization is the design and production of advertising materials and food contact products with the use of offset and digital printing.

In order to achieve the above goal, organizational activities are oriented towards:

- continuous meeting of customer needs and expectations
- maintaining a well-functioning production infrastructure
- implementation of new technological solutions
- consulting support in the field of optimization of production solutions
- Ensuring competent staff
- stability of the organization's functioning.

We are committed to:

- compliance with the applicable requirements
- continuous improvement of the Quality Management System (QMS) according to ISO 9001:2015.

As the top management of AMK Group Rękawek Kondraciuk, we take responsibility for the effectiveness of QM, manifested primarily by the compliance of the products and services delivered, as well as the functioning of organizational processes in accordance with the applicable requirements.

This quality policy provides a framework for setting quality objectives and implementing organizational activities, is communicated, known and understood by personnel and is accessible to all interested parties.
